INTRODUCTION

At MySteel Dutch Products we believe in the power of durable and high-quality garden products that make outdoor living more enjoyable. Since our establishment in 2019, we have positioned ourselves as the specialist in steel garden products. With our wide range of innovative planters, garden fixtures such as wood storage units, fire bowls and stairs, to name a few, we offer a desired solution for everyone, standard from stock or custom made.

Our commitment to quality and affordability makes us unique. We design, engineer and produce everything ourselves in the Netherlands. The entire process takes place under one roof with an eye for detail and craftsmanship: from idea on the drawing board to delivery of the final product. This allows us not only to guarantee quality, but also to deliver quickly and efficiently. We closely follow innovative developments and integrate them into our production process, partly due to maximum automation we are able to work precisely while keeping our costs low. We are proud of our advanced production facilities which allow us to control and optimize the quality of each product.

In recent years, we have grown into a company with 60 employees and a warehouse of 8000 m². We have a large stock which enables us to deliver quickly to our customers, wherever they are. We are already operating in 26 countries in Europe and are determined to become the global market leader in smart steel garden products.

Our mission is simple: to enrich our customers' outdoor areas with practical, aesthetic and durable garden products. Whether you have a small urban garden or a large outdoor space, our products always offer the perfect solution. We are committed to thoughtful designs that enhance the ease of use while providing a luxurious look.

Our core values:

Quality: We make no compromises when it comes to the quality of our products.

Reliability: We deliver quickly from our large stock.

Innovation: We continue to innovate to provide the best garden solutions time after time.

Durability: Our products are designed to withstand a long life.

MYSTEEL DUTCH PRODUCTS IS ALL ABOUT QUALITY, SPEED AND INNOVATION. WHETHER YOU ARE A GARDEN PROFESSIONAL OR AN INDIVIDUAL LOOKING TO UPGRADE YOUR GARDEN, WE MAKE SURE YOU ALWAYS GET THE BEST AT A FAIR PRICE.

MATERIALS

Corten steel
Corten steel is a type of steel renowned for its durability and distinctive appearance. It is designed to form a protective rust-like layer when exposed to the weather, which prevents further corrosion. Its warm, earthy tones and ability to blend seamlessly with natural surroundings add aesthetic value to its practical benefits.

Powder coated galvanized steel
Powder-coated galvanized steel is both strong and rust-resistant. The coating prevents corrosion, while the powder layer adds a durable, colorful finish.

Aluminium
Aluminum is a lightweight, strong, and corrosion-resistant metal. Aluminum is also fully recyclable, making it an eco-friendly choice.

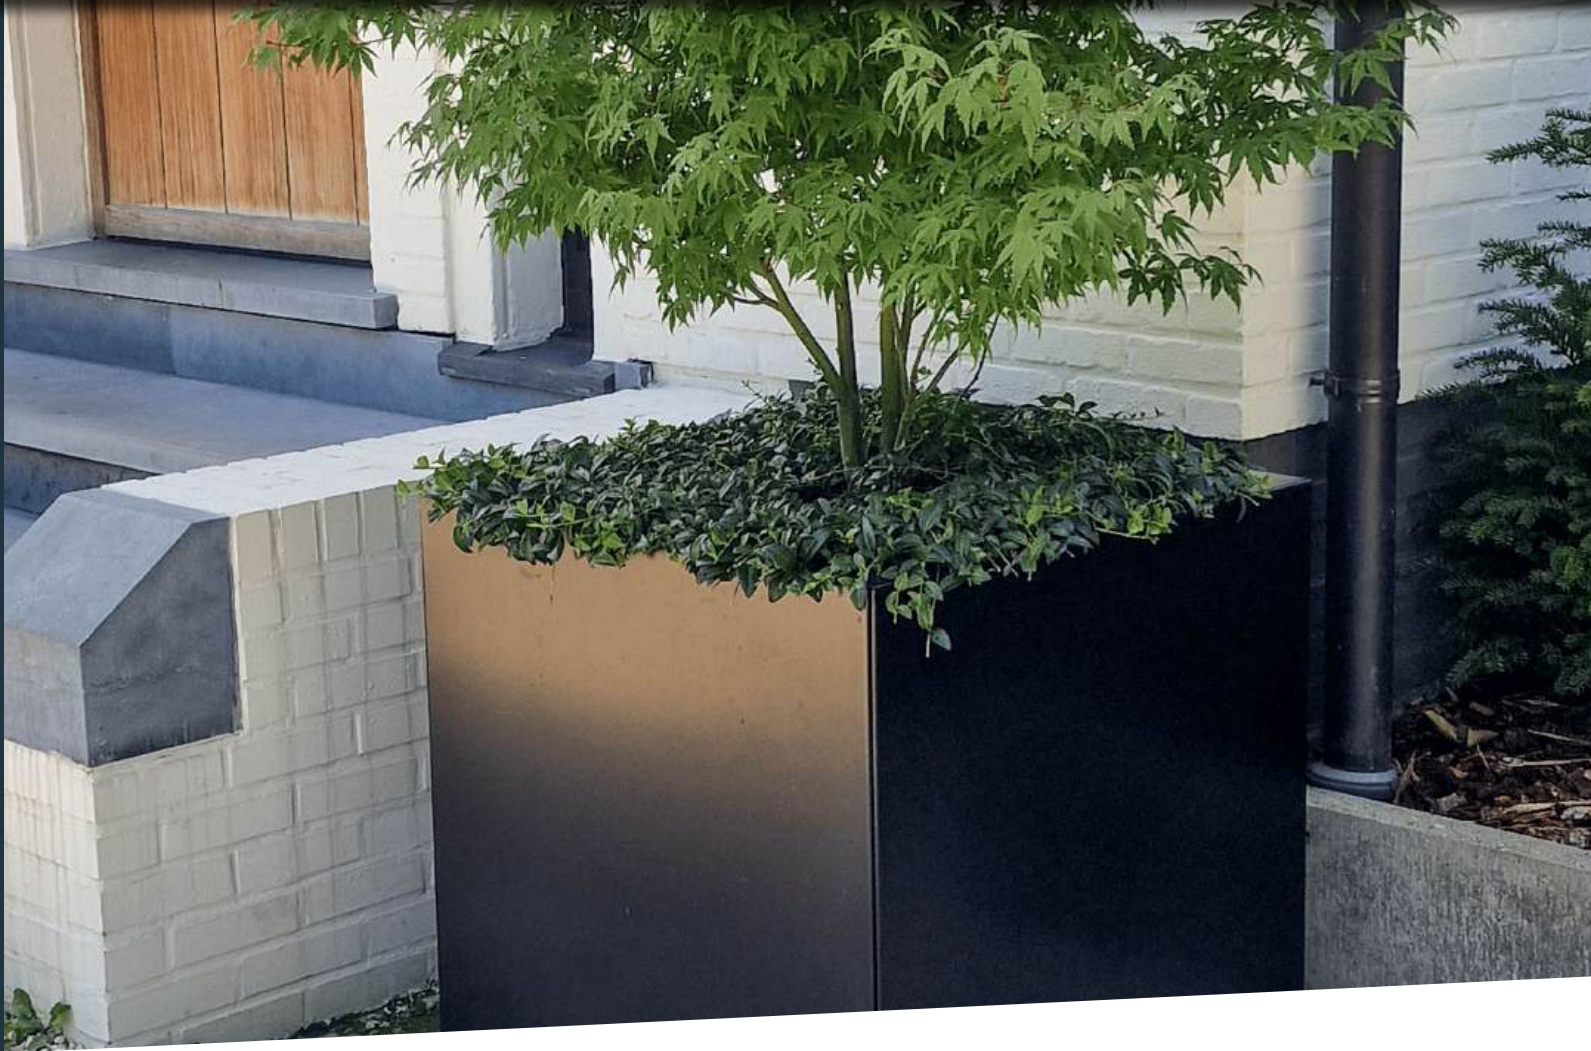

Douglas wood
Douglas wood is a durable and versatile type of softwood known for its strength and warm appearance. Our Vegas benches and picknicktables are made with this type of wood.

Sendzimir galvanized steel
Sendzimir galvanized steel offers strength and excellent corrosion resistance. The zinc coating protects the steel. The material ensures a professional look with long-lasting quality.

Dekton
Dekton is an ultra-compact, durable surface material made from a blend of raw materials, including glass, porcelain, and quartz. It is highly resistant to scratches, stains, acids and impact, making it ideal for the tabletops of our lounge (fire)- and side tables

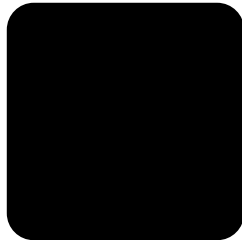

MYSTEEL STANDARD COLORS

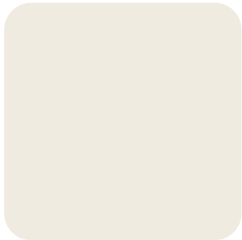

Embody elegance with one of our standard colors for powder-coated steel products.

RAL7016 matte
(Anthracite grey)

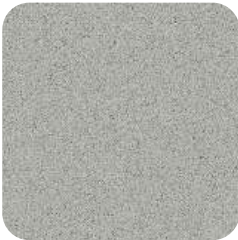

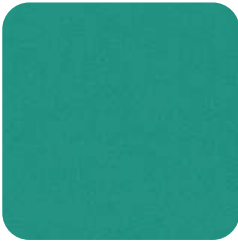

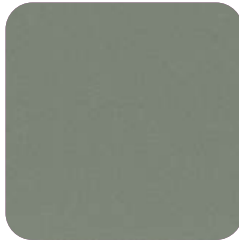

RAL9005 matte

GARDEN EDGING

Transform your garden with our steel borders, adding stylish height differences in a modern and sturdy way. Whether you love sleek straight lines or elegant curves, we have the perfect steel borders for you.

A garden with a beautifully finished border is easily created with our steel border edging. With an edge you separate your grass, flower bed, walkway, etc. from the rest of your garden. The edging is available in various profiles: straight, set, crushed and our **new type of border edging, called FLEX.**

With a Corten steel overlay profile (U-profile), you can very easily create a luxurious, modern and high-quality border in your garden. This steel profile can easily be placed over concrete curb stones or stacking blocks, but they are also easy to press into the ground. Irregularities between concrete borders are perfectly compensated for by the length of the profiles. In combination with a rusty planter or another element in Corten steel, you create a beautiful whole in your garden.

HOUSE NUMBERS

Real eye-catchers for your front door. They are not only very modern and neat, but also durable and low in maintenance. The house numbers are available in Corten steel, brushed stainless steel or black. They are provided with spacers, which ensure that the house number is mounted with a small distance from the wall. The spacers ensure a tight end result.
